Please save the date. The conference website and online registration will open soon. If you would like to present a talk or would be interested in exhibiting at LSC2024 please email

contact@LSC2024.co.uk

Abstract submission deadline : 31st January 2024

LSC 2024 will continue the international conference series dedicated to all aspects of Liquid Scintillation Spectrometry which dates back to 1957. Key topics will include:

- New developments in LSC methodology, techniques and instrumentation
- Applications of LSC in Nuclear, environmental, bioscience and radiation protection
- Future developments in scintillation analysis
- Calibration and standardization and quality assurance

Please note that a technical workshop on volatile radionuclide extraction and separation, hosted by Raddec International & Triskem International will be held on the 18th April at the same venue. Registration details will follow shortly.
